Dear Electronic Arts Customer:

We are all aware of the abundance of computer publications available to owners of home computers. And we here at Electronic Arts have viewed most of them. Some magazines do a decent job of writing about the computer industry, but very few do an outstanding job of focusing on the true needs of the home computer user.

COMPUTE! is one of the few. Every month *COMPUTE!* offers you hands-on information and enticing programs to help you use your computer. You'll find each issue packed with product reviews, feature articles, and programs on home management, games, and everything in between.

Those of us who believe in the value of home computing—you, the computer user; Electronic Arts, the developer of entertaining and useful software programs; and *COMPUTE!*, the applications-oriented magazine you'll refer to again and again—share a common goal: to fulfill the promise and the excitement of home computing. We feel that *COMPUTE!* exceeds this promise every month.

That's why *COMPUTE!* and Electronic Arts are pleased to offer you a special subscription opportunity: a year of *COMPUTE!* for 50 percent off the regular newsstand price!

Subscribe to *COMPUTE!* and unleash the power of your personal computer.

Sincerely,

Bing Gordon
